Description: Dataviz—the new language of businessA good visualization can communicate the nature and potential impact of information and ideas more powerfully than any other form of communication. For a long time “dataviz” was left to specialists—data scientists and professional designers. No longer. A new generation of tools and massive amounts of available data...

Review: For a book on making good charts, there were surprisingly very few quality chart examples in this extensively text based book on visual design...
